RECENT PROJECTS

Moim College Community Project

May 2020 - July 2020

Fullstack Developer

- Designed visual elements of the mobile application to improve the user experience in college life management.
- Supervised the team members' workflow to optimize handling of the git and NoSQL database.
- Utilized Flutter and Firebase to enable cross-platform usage of the application.

City of Boston Transparency Project

January 2020 - May 2020

UI/UX Designer and Front End Developer

- Collaborated with three additional team members to develop a mobile responsive website, using Ruby on Rails, that the City of Boston can utilize to record and display the data collection equipment around Boston neighborhoods.
- Communicated with the City of Boston's point of contact to design the app as desired and in accordance with the City of Boston's commitment to transparency.
- Utilized Ruby on Rails, Mapbox GL JS, Leaflet JS, Bootstrap, jQuery, HTML, and CSS.

Capstone Project: Brandeis Rate My Professors & Courses

January 2020 - May 2020

Fullstack Developer

- Developed a user-friendly and Brandeis-specific website where students can write and read reviews of Brandeis courses and professors.
- Designed database schema optimal for keeping track of course and professor reviews from Brandeis students.
- Utilized Ruby on Rails, HTML, CSS, JavaScript, jQuery, Bootstrap.

PROFESSIONAL EXPERIENCES

KPMG

Gangnam, Seoul

Accounting & Tax Outsourcing Service Intern

January 2018 - March 2018

- Conducted accounting and tax outsourcing services, collecting and analyzing yearly tax data for ING underwriters.
- Performed user-testing of tax evaluation software to detect errors prior to company-wide implementation for 2018.

Korean Red Cross

Myeongdong, Seoul

Asia Pacific Disaster Resilience Center Intern

May 2017 - January 2018

- Designed and produced materials for disaster management training.
- Collaborated with other companies to organize more innovative and technical projects.
